Acumatica

The Cloud ERP

Manufacturing Edition

FLEXIBLE, INTEGRATED, EXTENSIBLE.

"With this system (Acumatica) we can double the size of the business without doubling the space and the people because we have power in the information. We can work more logically and save millions in labor by not having to double the staff size."

Ben Leinster, AFF|group, CEO
Industry: Automotive and Transportation

Complete Manufacturing ERP

Acumatica Manufacturing Edition provides unparalleled manufacturing depth with an extensive suite of connected manufacturing business applications for production, estimating, engineering, material planning, scheduling, and product configuration.

Automate processes, improve data visibility, boost manufacturing efficiency, and reduce costs with unique midmarket manufacturing features. Manufacturing Data Collection and Product Configurator applications reduce dependence on third-party applications.

Acumatica provides unique breadth with native document management, customer relationship management (CRM), project accounting, commerce, point of sale, expense management, payroll, and field service. A full suite of financial applications manages daily accounting tasks. Manage your entire business with powerful insights through configurable inquiries, personalized reports, role-based dashboards, and real-time business analytics.

Boost manufacturing efficiency with a comprehensive, mobile Manufacturing ERP designed for your industry needs.

"Without the Acumatica suite, we would certainly not have gotten ISO-certified… We framed our entire quality management framework around Acumatica, from document management to update processes."

Nathanial Fairweather, Managing Director, Triode
Industry: Electronics and Electrical Products

Create and manage production orders with detailed cost and performance analysis.

Create, configure, or estimate new part BOMs and routings with complete engineering change control.

Maximize resource utilization with finite capacity scheduling and material requirements planning.

Optimize supply chain activities with robust inventory and flexible order management.

Automate data collection with barcodes for mobile warehouse and manufacturing activities.

Simplify accounting with powerful business insights.

- Finance and Reporting

Acumatica Manufacturing Edition

Deep Industry Functionality Built for the Cloud

Hundreds of manufacturers across industries rely on Acumatica Manufacturing Edition. Specific industry features include by-products, compliance reporting, work orders or batch processing, lot and serial traceability, and more.

Aerospace and Defense
aircraft parts, search and navigation equipment, weapons

Apparel and Jewelry
clothing, footwear, fabring, luggage, rope, rings, necklaces

Automotive and Transportation
vehicles, trailers, motorcycles, bicycles, boats, components

Cannabis, Tobacco, CBD
marijuana, cigarettes, cigars, chewing tobacco, CBD oil

Chemicals and Life Sciences
cleaners, paint, cosmetics, pharmaceuticals, petroleum

Electronics and Electrical
appliances, computers, lighting, batteries, components

Fabricated Metals
hand tools, hardware, fasteners, springs, cookware

Food and Beverage
meat, dairy, fruit, vegetable, confectionary, beer, wine

Furniture and Home Goods
furniture, bedding, floor covering, pictures, home textiles

Industrial Equipment
equipment for farming, manufacturing, construction, more

Instruments and Medical Device
lab and medical equipment, photography, watches

Non-Metallic Minerals
stone, clay, glass, concrete, tile, ready-mix, minerals

Paper Products
paper mills, cardboard, envelopes, stationery, paper packaging

Plastic and Rubber
tires, gaskets, belts and hosing, plastic film, pipes, bottles

Primary Metals
steel mills, foundries, metal processing, die-casting

Printing and Publishing
magazines, books, newspapers, maps, greeting cards

Sporting Goods and Toys
sports equipment, hunting and fishing, toys, games, dolls

Wood and Lumber
logging, sawmills, millwork, cabinets, pre-fab buildings

Other Manufacturing
musical instruments, signs, sewing, art supplies, brushes

Non-Manufacturing Industries
agriculture, forestry, fishing, mining, distribution, more

Access the entire Acumatica Manufacturing Edition application and enter transactions anytime, anywhere, from a browser, ruggedized scanner, or mobile device.

Gain actionable insights with interactive, configurable dashboards to monitor key performance indicators and manage exceptions swiftly to avoid production issues.

Flexible Methods of Manufacturing

Every manufacturer is different, even if they make the same product. Every manufacturing ERP system supports different production methodologies. Acumatica is one of the few ERP applications on the market that supports both discrete (make to stock and make to order) and batch process manufacturing on a single platform.

Make to Stock (MTS)

Make to Order (MTO)

Batch Process Manufacturing

Assemble to Order (ATO)

Project-Centric Manufacturing

Configure to Order (CTO)

Mixed Mode Manufacturing

Engineer to Order (ETO)

Job Shop
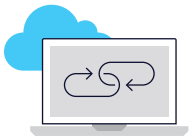

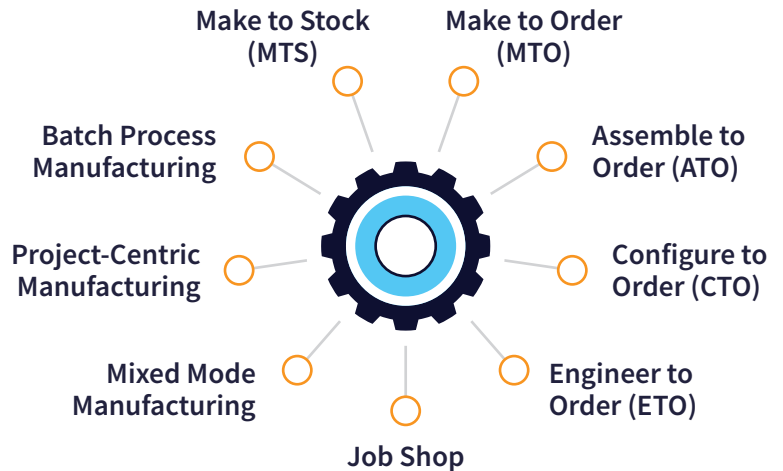

Extend Acumatica with Certified Applications

The Acumatica Marketplace is one of the leading communities of independent software vendors with integrated applications for budgeting and planning, electronic data interchange (EDI), equipment rental, quality control, logistics and shipping, container management, process manufacturing, and more.

"Acumatica helps us better analyze our sales and gives us the ability to analyze more categories with much more clarity…. We have a lot more real-time visibility into what other entities are doing, which allows me to be more effective and keep better tabs on what's going on and helps us make more strategic financial decisions."

Franklin Shiraki, Corporate Controller, Firewire Surfboards
Industry: Sporting Goods and Toys

Discover Why Leading Manufacturers Depend on Acumatica for their Success

LAUNCH THE VIEWER

Future-proof Cloud Platform Ready for Modern Technologies

Manufacturers demand a modern platform built for speed and extensibility to connect external systems and data.

The Acumatica xRP platform is a versatile architectural framework and application development platform that empowers manufacturers to tailor the software to the way they do business. Because Acumatica's ERP platform technology uses standard web technologies and development languages, you can modify your business logic using the platform tools or a different integrated development environment.

The platform is built on the world's best cloud and mobile technology. Leverage Open APIs to connect to the Industrial Internet of Things (IIoT), to capture data in real-time through machine interfaces, or to automate your shop floor with robotics, carousels, and other modern technologies.

The Acumatica xRP platform is more than just technology. It is the foundation manufacturers demand for the future. Visual workflows, embedded document management, multilingual translations and localization, mobile expense receipts, time management, and other platform-native features are included in the most resilient cloud ERP platform available for midmarket manufacturers. Acumatica Mobile Framework provides real-time access to data, and configurability without coding. It connects with mobile device features such as cameras for photos, microphones for voice notes, fingerprint recognition for security, GPS for location tracking, and more.

The Trusted Leader in Usability and Value

Acumatica's Customer Bill of Rights protects customers with an easy to understand End User License Agreement. It guarantees ERP implementations without hidden fees. The Bill of Rights outlines Acumatica's commitment to consumption-based licensing that does not inhibit growth. It provides sustainable pricing models with limited price increases, deployment choice, and consistent customer service access. Further, it protects customers' access to their data, anytime – even if they leave the Acumatica family.

Further, Acumatica is consistently rated high in both usability and value by industry analysts and users. Acumatica is ranked as a leader in the IDC MarketScape: Worldwide SaaS and Cloud-Enabled Midmarket Business ERP Applications. Advisory services provider Nucleus Research selected Acumatica as a market usability leader in their ERP Technology Value Matrix. The G2 user review site selected Acumatica as a Leader in the G2 Mid-Market Grid Report for ERP Systems. Acumatica maintains a near-perfect Overall User Rating on the Gartner Peer Insights report.
